Hi there,
I heard we have a pricing dataset. I need it for a project. Can you please send it to me?

Hi,
You should email Jack. He was working on a similar project. I don't know about datasets.
To: Jack@email.com
Subject: Pricing DataSet
Hi John,
I need a pricing dataset and I believe you have it. Can you please share it with me?
Best,
Jim

What is Amundsen?

An open-source data discovery engine introduced in 2019 by Lyft

By providing a holistic view of your data ecosystem from a single place, Amundsen helps to:

1. **Discover Automatically**: Always be on top of your available data, and their owners.
2. **Understand Available Data**: What does each column mean?
3. **Share Team Efforts** : Reap what others have sown!
   Prepare datasets once, use them many times.
4. **Assess Data Quality**: Quickly verify the data, its completeness and reliability.
5. **Democratize Access**: Make fundamental metadata (names and descriptions) visible to all.

DataChef's Offering

1. Deployed on **your own cloud** infrastructure
    - With your **security** and **privacy** measures in place
2. Only **30 minutes** and **one click** away
3. Available **freely** on **AWS Marketplace**
    - Vetted and verified by AWS team
    - Only pay for the hardware
4. Allows **onboarding** all your **corporate users** in no time (with their email addresses)
5. Compatible with most **legacy** and **modern** data sources
6. Getting you up to speed with crash course **training** and comprehensive **documents**
